PROFESSIONAL SUMMARY

Results-oriented **.NET Developer** with **10 months of experience** developing enterprise web applications, CRM solutions, and construction management systems using **C#, ASP.NET Core, Blazor, Entity Framework Core, SQL Server, and RESTful APIs**. Experienced in the full software development lifecycle, including requirements analysis, database design, backend and frontend development, testing, and deployment. Skilled at delivering scalable, secure, and high-performance solutions while collaborating with cross-functional teams to translate business requirements into production-ready applications. Passionate about clean architecture, code quality, and performance optimization.

WORK EXPERIENCE

.NET DEVELOPER | FocusLogic IT Services | Oct 2025 – Present

- Developed enterprise applications including the **Enterprise CRM Platform** and **AEGIS Construction Management System** using **C#, ASP.NET Core, Blazor, Radzen UI, Entity Framework Core, and SQL Server**.
- Designed and implemented **analytics dashboards, policy renewal workflows, and customer management modules** to improve business operations and user experience.
- Built the **Defect Management Module** for the AEGIS platform, enabling real-time defect registration, assignment workflows, status tracking, and management reporting.
- Developed and integrated **RESTful APIs** with Blazor components to ensure secure, reliable, and efficient frontend-backend communication.
- Collaborated with business stakeholders to analyze business requirements, design scalable solutions, and deliver production-ready features following software development best practices.

SQL DEVELOPER INTERN | Mediterranean Shipping Company (MSc Technology) | Feb 2025 – Aug 2025

- Developed and optimized** SQL Server queries, stored procedures, triggers, and database objects using **T-SQL** and **SQL Server Management Studio (SSMS)** for payroll and attendance management systems.
- Designed and implemented a Payroll Management System**, including database schema design, data validation, stored procedure development, and performance optimization.
- Enhanced database performance** through query optimization, indexing, execution plan analysis, and backend database integration, improving system efficiency, data accuracy, and application reliability.

WEB DEVELOPER INTERN | IVTL Infoview Technologies Pvt. Ltd. (WORKSAP) | July 2024 – Aug 2024

- Developed backend modules** using **Java, Spring Boot, SQL Server, and REST APIs**, contributing to web application development, database integration, and feature implementation.
- Designed and implemented a Login Tracking System** utilizing **Spring Boot, SQL Server, and CRUD operations**, while participating in debugging, testing, and backend feature enhancements.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

• C# • SQL • Python (DS) • Java • JavaScript

DATABASES & TOOLS

• SQL Server (SSMS) • MySQL • Stored Procedures
• Triggers • Postman

CORE COMPETENCIES

• REST API Development • Clean Architecture
• Agile Methodology • Performance Optimization
• Database Design • Debugging & Testing

FRAMEWORKS & TECHNOLOGIES

• .NET • ASP.NET • Blazor • Radzen UI
• EF Core • HTML5 • React.JS

DEV TOOLS & PLATFORMS

• Visual Studio • VS Code • Git • GitHub
• Azure • Power BI

PROJECTS

Enterprise CRM Product | FocusLogic IT Services | *Dual Role: Technical & Business Developer*

TECHNOLOGIES: ASP.NET Core, Blazor, Radzen UI, SQL Server, Entity Framework Core

- **Led end-to-end development** of enterprise application modules, encompassing business requirements analysis, solution design, database architecture, implementation, and client-ready UI delivery.
- **Designed and developed** interactive analytics dashboards, automated policy renewal workflows, and secure customer information management features to streamline business operations.
- **Partnered with cross-functional stakeholders** to analyze business requirements and deliver scalable, maintainable, and high-quality technical solutions aligned with organizational objectives.

Enterprise AEGIS Construction Management System | FocusLogic IT Services | *Front-End Developer*

TECHNOLOGIES: ASP.NET Core, Blazor, Radzen UI, SQL Server, Entity Framework Core, Git

- **Designed and developed** the **Defect Management Module**, enabling efficient defect reporting, assignment, status tracking, resolution workflows, and comprehensive management oversight for construction projects.
- **Built responsive and user-friendly interfaces** for defect registration, workflow management, task assignment, status monitoring, and analytical dashboards using **Blazor** and **Radzen UI**.
- **Integrated frontend components with RESTful APIs** to deliver secure, reliable, and real-time data synchronization, ensuring seamless communication between the application layers.

Commercial Scrap Management System | Production Release | Local Client Project | *Full Stack Developer*

TECHNOLOGIES: HTML5, CSS3, JAVASCRIPT, SQL Server, Python, Full Stack Web Technologies, Relational Database, Git

- **Conducted business requirements analysis** by collaborating with stakeholders to understand operational workflows, inventory processes, and key business challenges, translating requirements into technical solutions.
- **Designed, developed, and deployed** a production-ready **Industrial Scrap Management System** for weight tracking, inventory management, invoicing, and operational reporting, improving process efficiency and data accuracy.

Personal Portfolio Website | Live Deployment | *Developer*

TECHNOLOGIES: HTML5, CSS3, JavaScript, GitHub Pages

Live Demo: <https://vijaykumarelumalai.github.io/>

- **Designed, developed, and deployed** a responsive personal portfolio website showcasing professional experience, technical skills, projects, certifications, and contact information.
- **Implemented** a mobile-first, cross-browser compatible user interface optimized for desktop, tablet, and mobile devices, and **deployed the application using GitHub Pages**.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering

Kingston Engineering College – Vellore, Tamil Nadu | CGPA: 8.1 / 10.0

NAG Matriculation Hr. Sec. School – Ranipet, Tamil Nadu | Percentage: 82.94 %

CERTIFICATIONS

- C# Programming • Web Development • Full Stack Development • Data Analytics & Data Visualization • Python
- Cisco Networking Essentials • Artificial Intelligence Fundamentals • Microsoft Power BI • Data Science • SQL

ACHIEVEMENTS

- **Completed three professional internships across .NET Development, Full-Stack Web Development, and SQL Server Database Engineering.**
- **Contributed to the successful delivery of two enterprise applications**—Enterprise CRM Platform and AEGIS Construction Management System.
- **Designed, developed, and deployed** a production-ready Commercial Scrap Management System and a responsive personal portfolio website.
